

SYNAPSE

Engineering Solutions

Mission

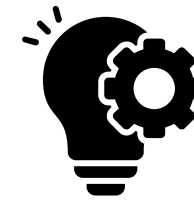

To provide innovative efficient and sustainable engineering solutions that exceed client expectations while adhering to the highest design standards.

Vision

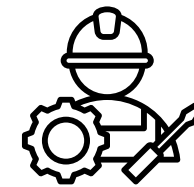

To become a leader in the Civil Engineering solutions industry by delivering economical designs that enhance the Viability of the projects and contribute to sustainable development

Our SERVICES

Pre-bid analysis, quantification, rates for EPC & HAM projects.

Value Engineered Post Bid Re-Engineering Services

Design Services For Highway, Irrigation and railway Projects

Design Services For Railway Projects

Architectural & Design services for Commercial/Residential Buildings

Our Projects

Featured Projects

4-Laning of NH-20 from Tupudana to Kundibartoli, Jharkhand:

Comprehensive pre-bid assessment for the expansion of NH-20 from 2-lane to 4-lane with paved shoulders, ensuring seamless highway connectivity and reduced traffic congestion in Jharkhand.

Upgradation of Nandurbar-Taloda Road, Maharashtra:

Upgrading the existing road to a 4-lane highway with paved shoulders, enhancing regional transportation in rural Maharashtra and connecting economic hubs efficiently.

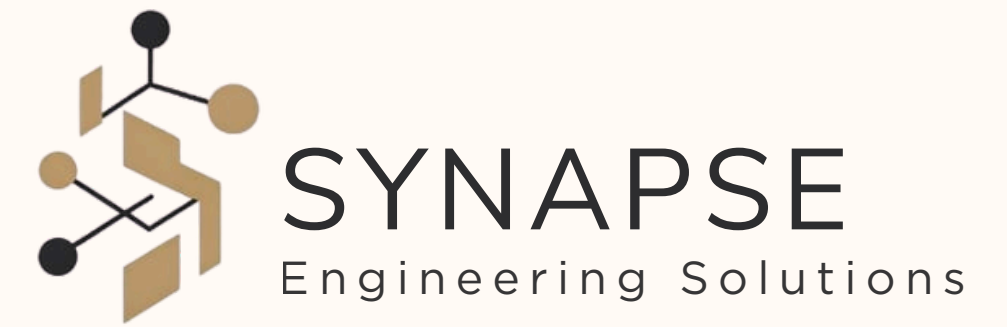

Widening of NH-347B from Deshgaon to Dewalgaon, Madhya Pradesh (Package-1)

Widening of a 2-lane highway to a 4-lane configuration with paved shoulders, focusing on safer, faster travel between key economic corridors of Madhya Pradesh.

Widening of NH-347B from Dewalgaon to Julwaniya, Madhya Pradesh (Package-2)

Engineering consultancy for converting the existing highway into a 4-lane road with paved shoulders, aimed at boosting connectivity across key trade routes in Madhya Pradesh.

Client TESTIMONIALS

National Highways Authority of India (NHAI)

Synapse Engineering Solutions has demonstrated exceptional expertise and professionalism in delivering detailed pre-bid assessments and value-engineered designs for several key highway infrastructure projects. Their commitment to quality, timely delivery, and innovative approach to sustainable engineering have added significant value to our initiatives. We look forward to continued collaboration on future projects.

Ministry of Road Transport & Highways

Synapse Engineering Solutions has consistently delivered high-quality engineering consultancy services marked by technical precision, timely execution, and a forward-thinking approach. Their contributions to critical infrastructure projects have strengthened our efforts in building safe, sustainable, and future-ready road networks across the country. We value their dedication to engineering excellence and their proactive project delivery mindset.

• KRDCL

Synapse Engineering Solutions has been a reliable and technically sound partner in the development of our infrastructure projects. Their team's ability to provide detailed design services, especially for complex structures and bridges, showcases their in-depth domain knowledge and commitment to quality. We appreciate their collaborative approach, timely support, and innovative solutions that align with our project goals.

Vensar Constructions

Working with Synapse Engineering Solutions has been a seamless experience marked by engineering precision and deep project understanding. Their value-engineered designs and pre-bid assessments have significantly strengthened our bids and execution strategies. The team's responsiveness, technical expertise, and commitment to excellence make them a valuable engineering partner for large-scale infrastructure projects.

Why Synapse?

Design and Consulting

Expert design services for infrastructure projects, including structural, transportation and environmental engineering

Sustainability Solutions

Environment friendly and innovative designs and sustainable construction methods

Project Feasibility Studies: Comprehensive assessments to determine project viability and optimization
